Summary

Over the past 9 years, I have specialized in digitalizing manual industries across global markets, including Japan, Australia, Poland and India. I've led large-scale transformations, most notably in maritime logistics. I architected high-availability systems that moved 200+ companies (including Schlumberger and Pertamina) to 100% paperless operations with consistent 24/7 uptime. After delivering 25+ real-world projects with a 100% client approval rate, I am now building autonomous AI products at Yocatetin using Multi-LLM architectures to efficiently automate data management globally.
